Applicants must have a minimum of a recognized master's degree preferably in design and technology education or career education or related, with relevant teaching experience, administrative experience, and academic expertise for teacher education courses. Applicants for the teacher education courses (300-400 level) should have experience in the K – 12 school system. They should be familiar with the system’s structure and services and with the various stakeholder groups, and with authorities involved in the provision of education in British Columbia. Duties include teaching, holding regular office hours, marking assignments, reporting grades, attending subject area meetings as well as follow-up appointments, where applicable. For this particular course, experience with career transition students and reflective practice is necessary. EDCP 471 is an advanced curriculum and pedagogy course for technology education (in ADST) majors. In previous years, the course focused on maker culture (2017) and design-based learning (2018). Hence, the course can be aligned with a successful applicant’s expertise.
