

# 12th Indigenous Math K-12 Symposium - Virtual

## Learning from Indigeneity: Living Mathematics Education as Relational Practices

Getty Images | Tree Crown Shyness

May 10 & May 17, 2023

### Session 1 | Wednesday May 10, 3:30-4:45 (PT)

Keynote | Dr. Dwayne Donald is a descendent of the amiskwaciyiniwak (Beaver Hills people) and professor in the Faculty of Education at the University of Alberta. Dr. Donald's research focuses on Indigenous wisdom traditions and how they can expand and enhance understandings of curriculum and pedagogy.

### Session 2 | Wednesday May 17, 3:30-4:45 (PT)

Igniting the Sparkle Sharing Circle | Teaching mathematics with Indigenous perspectives and practices: What are we learning? Educators share their projects, questions, ideas, and learnings.

**Registration** | Opens April 3, 2023 | \$10 + GST covers both sessions, no refunds
